## LOOP WEAVING

BY SABINA KELLNER

### About the technique:

Loop weaving is a strong weaving-technique with an interesting structure, imitating scales, leaves or feathers. Balloonartists who like 160s, as I do and who like weaving techniques will love to play around with the loop weaving idea.

### Contents of the booklet:

The booklet has 24 pages with more than 100 colour photos and images and includes step-by-step instructions and helpful tips on how to make

„loop weaving in line“,

„loop weaving in a circle“ and

„flat loop weaving“

as well as selected balloonfigures for each technique, as a snake, a heart, flower designs, a vase and an elaborate parrot. (The instructions assume basic twisting skills.)

Price: **12 EUROS**

**DOLPHIN + LOOP WEAVING = 18 EUROS**
